Clarivate Analytics

In November 2018, QU was ranked 132<sup>nd</sup> among the “Best Global Universities for Computer Science” by U.S. News. The worldwide universities are ranked based on their reputation and research in the field. U.S. News rankings are esteemed for their comprehensive rankings and use of various bibliometric measures as criteria. “This classification is an international recognition that means our research groups are in line with the global standards in their progressive achievements, and is a reference for students, academics, university leaders, governments and the industry.” Department of Computer Science and Engineering head Dr. Somaya al-Maadeed noted; “This classification comes as one of the most important achievements of the department, through concentrated efforts with partners to ensure that students receive the best international education standards of regional and international importance.”
