World University Rankings 2019 by subject: computer science

The 2019 *Times Higher Education* World University Rankings table for computer science subjects uses the same rigorous and balanced range of 13 performance indicators as the overall World University Rankings, but the methodology has been recalibrated to suit the individual fields.

This year, we have made a small adjustment to the eligibility criterion for academic staff in the subject tables, which has resulted in more universities being eligible for inclusion.

University of Essex

In November, 2018, QU was ranked among top 250 world universities in computer science subject according to Times Higher Education (THE) Ranking 2019. 13 performance indicators were brought together for the overall World University Rankings with scores provided under five categories. However, the overall methodology is carefully recalibrated for each subject, with the weightings changed to suit the individual fields. In addition to that, QU was ranked among the best arabic univeristies. You can read about the methodology [here](#).
