Participation of CSE Department in Celebrating the Qatari National Day 2018

In December 2018, a number of CSE and CENG faculty members (Dr. Sumaya Al Maadeed, Dr. Amr Mohamed, Dr. Noor Al Maadeed, Dr. Khalid AbuSoud, and Dr. Tamer Khatab) participated as independent observers in the challenge of breaking the world's highest number of installations of Moziek pieces. That event was part of the several events presented in Darb Al-Saai to celebrate the Qatari National Day 2018. The goal of this event was to reach a new Guinness world record "most people to contribute to a painted wooden block mosaic". The result is a work of art that contains 33000 parts of mosaic that welcomes guests to Qatar 2022.
