

### Six Awards for CSE department in QU annual research forum 2019

Qatar University Annual Research Forum and Exhibition has been always the meeting point for students, researchers and academics from the University's nine colleges, centers and institutes; including partners and stakeholders, to assess and review the institution's research enterprise. This year's high profile event will be extended to two days and will feature theory grounded discussions, and original research presentations. It is an occasion to demonstrate new tools, or report on the implementation of new programs, collaborations, innovations and other relevant projects that take bearing from the QU Research Roadmap 2018-2022, Qatar National Research Strategy and Qatar National Vision 2030.

The forum this year (April 2019) highlighted the important and awarded winning research being conducted at Qatar University that promotes the vision of the University and supports the research priorities of Qatar in the areas of Water Security, Energy Security, Cyber Security, Social Priorities and Health; and the goals of the Qatar National Vision 2030.

Luckly Computer Science and Engineering department collected six different awards under the umbrella of the QU annual research forum which are:
