

# Message of Head of the Department

Welcome to our **CSE Connect** Newsletter. It is my pride and privilege to belong to the Computer Science and Engineering Department, for Computing is the key to Connection and Smart Living. The job market for Computer Science and Technology in Qatar and worldwide is constantly growing. Undoubtedly, Computer Science and Engineering Department prepare undergraduate and post-graduate students for productive professions in Computer industry, and government by providing an outstanding environment for teaching, and learning. Thereafter, I'm happy to announce that CSE awarded renewal of its five-year accreditation by the Engineering Accreditation Commission of ABET, and the Computing Accreditation Commission of ABET, <http://www.abet.org> for the Bachelor degree programs in Computer Engineering and Computer Science.

The first pillar of Qatar Vision 2030 is Human Development. In order to support human development in Qatar, CSE Department Committed to implement high quality educational and training opportunities for students. At the Undergraduate level, the total number of registered students at CSE Department increased by 80% within the last 5 years. The percent of increase was even higher among the Qatari students as it reached 105%.

A long-term vision of the Department and Qatar University is to be among the top academic institutions in the field of Computer and related areas. From this standpoint, the CSE Department is doing its best in research, education and community service. It is a pleasure to be among the global top 251-300 in Computer Science and 176-200 in Engineering and Technology based in Times Higher Education Subject Rank 2018. Furthermore, Qatar University in the field of Telecommunication Engineering, is recently ranked among top 51 – 75 in the world according to 2017 Shanghai Global Ranking of Academic Subject. Qatar University also ranked 201-300 in the subject of Computer Science and Engineering in the world according to 2017 Shanghai Global Ranking of Academic Subject.

Congratulations and best wishes to our faculty, Staff and Students for the academic achievements.

Thank you,

Dr. Somaya Al-maadeed

Head of Computer Science and Engineering Department
