First place winner of the 2016-17 Dell-EMC Envision the Future Competition in the Middle East, Turkey, and Africa region.

The team of Dr. Abbas Amira project has been selected as the first place winner of the 2016-17 Dell-EMC Envision the Future Competition in the Middle East, Turkey, and Africa region. The project was among 27 finalists in a competition that has received 214 submissions from 11 countries. Teams from only 5 countries have reached the final stage. It is a great accomplishment at the regional level.

The entire team that has developed each of the highest ranked projects were interviewed by a globally distinguished members of Dell EMC technical and scientific staff.

Project title: Automatic Aneurysm Segmentation on Reconfigurable SoC. And team members were: Ealaf Hussein, Maroua Filali, and Salma Shalaby.
