## Visit of Ministry of Interior to the CSE VR Lab.

On 16th 2017, the director of training in the Ministry of Interior and his associates have visited the Virtual Reality Lab in the College of Engineering to discuss future collaboration on a vital project regarding using the state-of-art virtual reality technology for training. They were briefed about the lab and invited to try different demonstration to show case the potential of this technology and what can be done in the lab. The visit was fruitful and the two sides agreed to start working on small project as a start.
