

Placement in foundation courses (ACCUPLACER)

ACCUPLACER test is one of the QU entry requirements into the foundation-level Program. It will gauge your English and Math levels.

Why should I try to do my best in ACCUPLACER?

- If you are able to achieve the required exemption scores*, you may not need to take Foundation Program English and /or Math courses.
- It will have an impact on the amount of time you will study at QU and the quality of your educational experience.
